A Premiere B2B Event

# Source, Scale, Succeed

- 4 Days to Transform Your Business

29 April – 02 May 2026

YASHOBHOOMI, NEW DELHI

## The Boom is Real. The Opportunity is Now.

India's unprecedented economic growth is fueling a massive construction & infrastructure surge. From new cities to landmark buildings, the demand for high-quality natural stone, machinery, and technology has never been greater.

This is the definitive market for growth in the next decade.

### INDIA STONE SHOW 2026 Co-located with Bharat Buildcon

India Stone Show 2026 represents a historic milestone—the first-ever dedicated international exhibition exclusively focused on natural stone, launched as a cornerstone sector within Bharat Buildcon 2026. Unlike traditional trade shows featuring stone as one category among many, India Stone Show creates an entire ecosystem dedicated to the natural stone industry: granite, marble, sandstone, limestone, travertine & specialty stones.

This is a vertical dedicated to one of India's largest export commodities — \$1.2 billion in annual granite exports alone—with government backing, international buyer participation, and strategic positioning within India's premier B2B platform.

### The Platform to Achieve Your Business Objectives.

 **Generate High-Quality Leads**  
Meet thousands of active buyers & specifiers in just three days, dramatically shortening your sales cycle.

 **Build Your Brand Presence**  
Position your brand as a serious player in one of the world's most dynamic markets.

 **Gain Critical Market Intelligence**  
Understand emerging trends, competitor strategies & customer needs firsthand.

 **Forge Strategic Partnerships**  
Find reliable distributors, agents & collaborators to build a long-term foundation for success in India.

**US\$25  
Billion**   
**Market opportunity awaits.**

### A Nation Building at Unprecedented Scale.

Aviation & Transit

National Infrastructure Pipeline

Urban Mobility

### Market Snapshot

**\$709.2 Million**

Total market revenue generated in 2024.

#### Key Product Segments

Granite: The Market Leader

**7.1% CAGR**

Expected compound annual growth rate from 2025 to 2030.

#### Marble: The Fastest Grower

**\$1,061.1 Million**

Projected market revenue by the year 2030.

**7.0% Global Share**

India's share of the global natural stone market revenue in 2024

# A New Era of Architectural Ambition.

**Shift to Premium:** Indian architects and designers are increasingly specifying imported and exotic stones to create globally competitive designs.

**Beyond the Basics:** Demand is surging for value-added products: engineered quartz, large-format slabs, and technologically advanced processing.

**A Hub for Design:** India is becoming a global hub for architectural services, influencing trends across the region.

## The Skyrocketing Demand in Real Estate

**Commercial Boom :** 300M+ sq. ft. Grade-A offices by 2025, boosting premium stone demand.

**Luxury Residential :** 150% surge in high-end villas & towers favoring natural stone.

**Hospitality Rise :** 300+ luxury hotels choosing exotic stones for signature design.

## Exhibitor Profile

### Stone Products & Materials

- Marble
- Granite
- Natural Stone
- Marble Blocks
- Granite Blocks
- Large Stone Formats
- Stone-based Design

### Machinery & Equipment for the Stone Sector

- Machinery for Stone Sector
- Workshop Equipment
- Numerical Control Machinery
- Heritage Preservation Technologies
- Lifting and Transport Systems
- Disposal, Ecology, and Depuration Systems

### Tools & Chemicals for Stone Processing

- Abrasives
- Diamond Tools
- Protective Chemicals
